

EVOLVED CONNECTIONS MADE SIMPLE

Your network at your fingertips

Affiniti has been in the business of providing complex network designs, implementations, and remote management services for nearly 20 years. Affiniti’s model is based on a collaborative relationship, driven by specific customer requirements.

Affiniti Network Assure is a service that provides Managed Network Operations to companies who wish to outsource the monitoring and management of their network infrastructure.

Affiniti Network Assure provides proactive, end-to-end, network and equipment monitoring and management. Services include network performance monitoring, trouble ticketing, and problem determination through resolution by leveraging proprietary predictive analysis tools.

Affiniti takes a proactive approach through aggregate trending analysis

Detection of a problem triggers fault correlation, error reduction and automatic trouble ticket generation, identifying specific circuits and devices that are affected by the situation.

Simple plug and play installation that provides a wealth of already available data – without writing any code.

Affiniti network professionals compare your data to others in your industry to ensure you are running at optimum levels, and help you become the master of your network environment.

You will be able to analyze the past behavior of your network, understand potential issues in real time, and gain insight into probable future issues in time to take corrective actions.

Improve service levels, lower operational costs, and provide flexibility for future infrastructure decisions with Network Assure from Affiniti.

Your network your way

- Have your network professionally monitored and managed by certified Network Operations professionals 24x7x365.
- Affiniti’s Network Operations Center (NOC) utilizes diagnostic tools beyond the budgets of some organizations.
- Affiniti’s real-time network monitoring and management reduces IT costs.

Ready for flexibility in your network monitoring solution?

Affiniti Network Assure services are flexible and can be designed as a primary or backup service to meet customer’s specific operational needs.

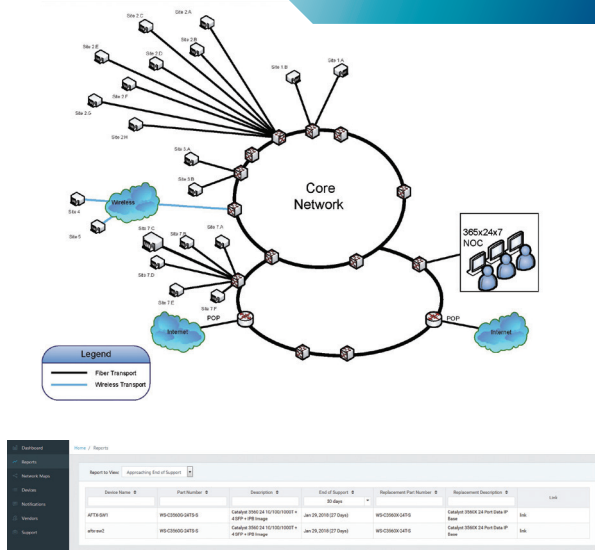

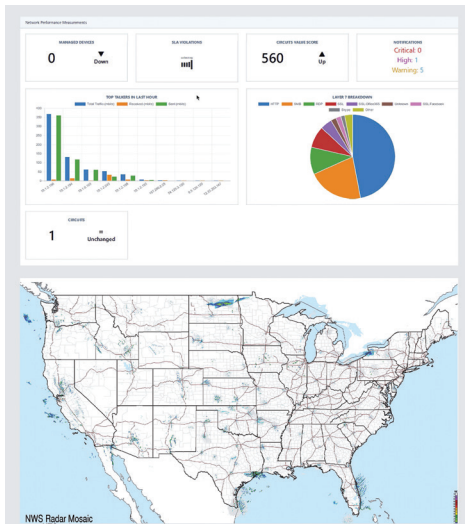

FEATURES:

- Network Operations Center with 24x7x365 support
- No upfront costs
